

» **IBA Receives Reference from Belarusian Railway**

Igor Otliga, Head of the Information and Computing Center of Belarusian Railway, sent a letter to express his appreciation of the IBA's contribution to the development of the information infrastructure of Belarusian Railway.

Spanning 15 years, the partner relations between IBA and Belarusian Railway resulted in numerous successful solutions, including the [Information Analysis System to Manage Cargo Transportation](#) and the [Unified Finance and Resource Management System](#).

Otliga concluded: "Belarusian Railway appreciates the qualified assistance of IBA management and technical experts. As Belarusian Railway is planning to proceed with the expansion and modification of its infrastructure, we look forward to continued and mutually beneficial cooperation with IBA."
