

» **Experience**

Our company has rich experience in the development and support of system and application software for customers around the globe. Our major specializations include IBM mainframe systems and applications, Internet technologies and e-business solutions, SAP solutions and other ERP systems, and Lotus technologies.

AIMS for Sterling Forest (IBM USA) was the first software development project that helped us gain recognition in the IT community. It was implemented in 2002 by a team of five developers. Since then, the number of software project participants has been growing to reach 150 developers in 2005. From 2001 to 2005, we have successfully completed more than 50 projects for foreign customers. More than 30 projects are being implemented at present.

Our company is recognized for its excellence, innovation, and high quality products and services. We are striving to keep abreast of the times offering high-end technology solutions to our customers. Understanding, meeting and exceeding customer expectations is our top priority.

Being dedicated to our long-term clients, IBA-Gomel welcomes new customers and business partners from across the world. Just contact us to let us know what you need and we will be happy to assist.

We look forward to pleasant and beneficial cooperation with you!
